

Tally Prime Training

Duration: 20 hrs | Level: Intermediate

Complete accounting, GST, payroll, and bank reconciliation workflows inside Tally Prime.

Curriculum Covered

- Company creation, ledgers, and voucher types
- Purchase, sales, payment, and receipt entries
- GST configuration and GST-ready invoicing in Tally
- Inventory and stock item management
- Bank reconciliation inside Tally
- Payroll setup — pay heads, attendance, and payslips
- MIS and financial statement reports (P&L, Balance Sheet)
- Data backup, security control, and multi-user access

Key Study Notes

Set up your chart of ledgers and stock groups correctly before you start data entry — restructuring them later is far more time-consuming than a proper 30-minute setup at the start.

Where to Learn More (Free, Official Resource)
